

**In the claims:**

Please amend claims 1 and 2. Claims 12-16 were previously canceled, and claims 17-22 were previously withdrawn. The Claim Listing below replaces all previous versions of the claims.

**Listing of Claims:**

1. (Currently Amended) An eye wipe, comprising:  
a single material forming one cavity with one opening in its entirety, the material configured to encircle a perimeter of a finger and shaped, with a finger inserted therein, to fit in a region of an eye near its tear duct, the material adapted to remove biological matter released from the eye at a position at or near the tear duct and having no adhesive material applied thereto.
2. (Currently Amended) The eye wipe according to claim 1, wherein the one opening includes a first edge portion and a second edge portion, the first and second edge portions being unaligned when the one opening is in an unopened state, thereby enabling a user to more easily insert a finger into the one cavity ~~said material includes a first material and a second material coupled together to form an elongated cavity.~~
3. (Previously Presented) The eye wipe according to claim 2, wherein the cavity is substantially tubular with the opening at one end and tapering at the other end.
4. (Previously Presented) The eye wipe according to claim 1, wherein said material is a non-fibrous material.
5. (Previously Presented) The eye wipe according to claim 1, wherein said material is a unitary piece of material.

6. (Previously Presented) The eye wipe according to claim 1, wherein said material is operable to absorb moisture.
7. (Previously Presented) The eye wipe according to claim 1, wherein said material has at least one of the following shapes: square, rectangular, oval, or circular.
8. (Previously Presented) The eye wipe according to claim 1, wherein said material has a maximum dimension of less than about two inches.
9. (Previously Presented) The eye wipe according to claim 1, wherein an eye irritant solution is substantially absent from said material.
10. (Previously Presented) The eye wipe according to claim 1, wherein said material is at least partially saturated with a non-eye irritating solution.
11. (Previously Presented) The eye wipe according to claim 1, wherein said material is at least partially saturated with a solution operable to remove makeup.
12. (Canceled)
13. (Canceled)
14. (Canceled)
15. (Canceled)
16. (Canceled)

17. (Withdrawn) A method for dispensing eye wipes, said method comprising:  
forming a series of eye wipes; and  
storing the series of eye wipes in a dispenser in a manner facilitating separation of an  
eye wipe from the series of eye wipes.
18. (Withdrawn) The method according to claim 17, wherein said forming includes applying  
a perforation between two eye wipes in the series of eye wipes.

19. (Withdrawn) A dispenser operable to store and dispense eye wipes, said dispenser comprising:
  - a bottom member configured to store a plurality of eye wipes and dispense a single eye wipe at a time; and
  - a lid operable to engage said bottom member.
20. (Withdrawn) The dispenser of claim 19, wherein said bottom member has a maximum length or major axis of about two-inches.
21. (Withdrawn) The dispenser of claim 19, wherein said bottom member and lid are operable to seal liquid when coupled.
22. (Withdrawn) The dispenser of claim 21, further comprising a mechanism coupled to an exterior surface of either said bottom member or lid and operable to be secured to another object.
